Hello!

As promised, updates:

Below is a reply I received. Our contact at DWP and I will monitor the situation to make sure it is resolved.

"This is a fire service that is in process to be renewed. Once the service gets renewed, the concrete crew should be coming behind them at some point to replace the vault."

DWP left a message for the District Superintendent to determine the timeframe for completion.

Thank you for your help with this matter, this issue has been on going since August '16.

Hi Blair and Boris,

When was this photo taken? I'm in contact with DWP and they need to know if the vault is currently sitting like the photo with the orange cones surrounding it or if this is a photo from August. If this photo is from August, what does the site look like now and would it be possible to get a current photo?

Thanks!
Lilie

Hi there, you two! Happy New Year!

Please see email below. I have copied Boris as this is his building...they are pretty fed up with waiting for this repair. Any expediting you can do would be most helpful - it must have just dropped off someone's radar.

Thank you,

Blair Besten

Hi there and Happy New Year!

We have a broken vault that has been on ice since August 2016. Can you help us get this repaired once and for all? We would be so eternally grateful.

Thank you!
